

CBC MID-LEVEL CAREER COMMITTEE 2023

PICKING UP WHERE THE EARLY CAREER COMMITTEE STOPS

The CBC Mid-Level Career Committee is the newest program from the CBC. This group was created to develop programming and networking opportunities to support publishing professionals in their mid career.

While mid-career is hard to define, this committee will predominately support those in years 5 to 10/15 of their publishing careers.

- Are you feeling a lack of support and connection now that you are in your mid-career?
- Do you want to engage more with children's book publishing professionals at other houses and in other departments?
- Looking for more information and guidance on how to be the best manager you can be?
- Would you like more professional development and the chance to connect with industry veterans for their advice and insights?
